LIGHTING RESTRICTIONS.

Not read

Reference G.H.Q. letter No.4289/13/M.O.3 dated the 31st October, 1942.

1. There may be occasions on which local modifications of policy are necessary in order to ensure uniformity within a given area. For example an important town may be just inside the boundary of the P.W. Area and thus be subjected to brown out conditions, while next door to it on the other side of the boundary there may be a large town with full illumination.

2. Again, it may sometimes be advisable to re-impose "brown-out" conditions in certain areas for limited periods, either because of important military movements taking place within the area or because of some sudden, but probably shortlived, threat of air attack.

3. In such cases, Army Commanders should advise Provincial Governments regarding the areas over which, and the period during which, such modifications of policy are required.

4. Major changes in policy will continue to be issued by War Department and Civil Defence Dept.

5. Reports will be rendered to G.H.Q. as soon as any local modification has been decided on.
